

Holy Cross Orthopedic Institute for your Joint Replacement Surgery

The Holy Cross Orthopedic Institute specializes in joint replacement surgery, upper extremity and hand disorders, foot and ankle reconstruction, sports medicine injury prevention and surgery, spine surgery, pain management and interventional spine procedures.

Our surgeons have trained at some of the finest institutions around the country. Our team of physicians, nurses, therapists and support staff are committed to providing compassionate care and utilizing cutting-edge technology and treatments. Our mission is to provide the highest quality patient care to you and your loved ones, becoming your trusted health partner for life. In short, our mission is you.

Nationally Recognized Orthopedic Care

Our award-winning care has been recognized consistently on the national level, and we remain committed to providing the best orthopedic care in the Southeastern United States. Some of the most recent accolades include:

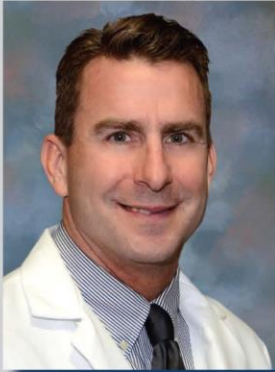

- US News & World Report: One of the Best Regional Hospitals in Fort Lauderdale-Miami and High Performing in Orthopedics (and One of 63 Hospitals Nationwide named "High-Performing" in ALL Nine Inpatient Surgical Procedures and Chronic Conditions Evaluated: colon cancer surgery, lung cancer surgery, heart bypass surgery, aortic valve surgery, abdominal aortic aneurysm repair, hip replacement, knee replacement, heart failure and COPD) – 2016
- Blue Distinction® Center+ in the Blue Distinction Centers for Knee and Hip Replacement - 2016
- Centers for Medicare and Medicaid Services (CMS) - Among top 25 in the nation (and the only one in South Florida) that performed better than the U.S. national rate for avoiding 30-day risk standardized readmission and complications following total hip and total knee replacement - 2014
- First in the world to use MAKOpasty® for partial knee resurfacing
- First to use MAKOpasty® in South Florida for total hip replacement and in 2016
- First in the world to perform a robotic total knee replacement using the MAKO RIO® Robotic Arm System
- Pioneers in the use of Orthosensor's VERASENSE in sensor-assisted knee replacement surgery, and serve on design teams for the latest knee implants.

Our orthopedic physicians are well-versed in the latest technologies and biomaterials utilized in joint replacement surgery. We are proud to be one of the largest joint replacement providers in Florida.

Through our Orthopedic Research Institute, we are relentless in our pursuit to find new ways to prevent, diagnose and treat orthopedic conditions.

To further enhance your care and for your convenience, Holy Cross Hospital offers outstanding care through our outpatient Orthopedic Rehabilitation Centers onsite at our Fort Lauderdale, Rio Vista, and West Boca Raton locations. Outpatient and inpatient orthopedic rehabilitation are available on the main Holy Cross Hospital campus.

Orthopedic Surgeons Currently Participating in the GE Center of Excellence Program

Lloyd Cope, MD
